MARIOKART[®] DS

*The **ultimate**
Mario Kart race is on!*

Single-Player Mode

Put it in gear!

No need to fret if you're racing solo—this incarnation of Mario Kart has more than ever to offer. Players will tour brand-new tracks and battle arenas, not to mention favorite courses from every Mario Kart game in the series—over 30 courses in all! Race your own ghosts in time trials, take on computer-controlled opponents in battle matches, or take on one of eight grand prix cups. Frantic speed, crazy new items like the Blooper, multiple karts per character, and an all-new mission mode make this a Mario Kart fan's dream!

With three ways to play, Mario Kart has never been better! Win cups solo-style, battle wireless buddies, or take on pals wherever, whenever over the Nintendo Wi-Fi Connection!

Wireless LAN Mode

Total shell-tossing mayhem!

Mario Kart's always been an intense multiplayer experience, and that was with only four players. Now you can connect up to eight players at once for insane Vs races and no-holds-barred battles. You can even have eight-person matches using a single Game Card! As you race, be sure to watch the bottom screen on the DS as you dodge incoming items and keep track of other racers—don't forget to tap the Touch Screen to zoom the map in and out! You can also use the Touch Screen to customize your name and kart emblem for personalized racing.

***There's always
someone ready to play!***

Now you can take on your friends wherever, whenever! By connecting to the Nintendo Wi-Fi Connection, you can match yourself against friends, recent rivals, or even others in your skill level, both domestic and worldwide. Up to four players can race each other on any of the courses as they vie for title of World's Best Kart Racer!
